

## MCS Student Alumni Testimonials

It was a blessing to be at that school to learn, grow, and get out of your comfort zone with all of the new friends you would make! - *Ash-leigh Alexander*

"MCS was an amazing school. The work challenged me and helped me build a strong base for going into high school. Every teacher was well-trained in his/her subject and taught it well, making learning fun." - *Graduate, Class of 2008*

"MCS helped me gain confidence in myself and develop strong study and health habits. The teachers really care for their students and even when we may not want their help they help when you need it the most." - *Graduate, Class of 2008*

"The Washington, D.C. trip and Outdoor Education really helped us bond with each other and develop friendships that will last for a lifetime. Through it all, we learned about seeing the glory of God in nature, history and more." - *Graduate, Class of 2008*

"The opportunities for ACSI competitions such as the speech meet really prepared me for high school because now I have much more experience in public speaking. I know that this valuable skill will be used very often in high school, and I am glad that MCS has trained me for it at a young age. - *Graduate, Class of 2008*
